

## What can OFGO Desking do for you?

OFGO products may contribute to credits in LEED® rating systems. Products that help obtain LEED® credits will assist you in achieving your green building goals. To learn more about the LEED® rating systems visit the U.S. Green Building Council's website at [www.usgbc.org](http://www.usgbc.org).

### Desking systems series which apply:

- Modern • Modern Enhanced • Strata • Novelle • Novelle Enhanced • PanelX

## Materials and Resources

### Waste Stream Audit

MR Credit 6

**INTENT** To facilitate the reduction of ongoing waste and toxins generated by building occupants and operations.

**CAPABILITY** The packaging for OFGO furniture is made primarily of recyclable materials (Corrugated cardboard, honeycomb cartons and wood frames).

### Sustainable Purchasing – Durable Goods

MR Credit 2.2

**INTENT** To reduce the environmental impacts of the materials required for use in operations and maintenance of the building

#### **CAPABILITY**

- OFGO desking products contain 10% Post-Consumer and 76% Pre-Consumer. This is based on a typical workstation.
- OFGO products can support Regional Materials depending on a project location. OFGO desking products are manufactured in Concord, Ontario, Canada.

## Indoor Environmental Quality

### Indoor Air Quality Management

IEQ Credit 1.1 - Indoor Air Quality Best Management Practices - Indoor Air Quality Management Program

**INTENT** Reduce indoor air contaminants and promote the well being of workers and building occupants.

**CAPABILITY** OFGO Desking Systems are GREENGUARD Indoor Air Quality Certified® and GREENGUARD Children & Schools Certified<sup>SM</sup> as low emitting for a healthier environment.

## Indoor Environmental Quality Cont.

### Green Cleaning

IEQ Credit 3

**INTENT** To reduce the exposure of building occupants to potentially hazardous chemical, biological and particular contaminants.

**CAPABILITY** OFGO Desking Systems can be cleaned using environmentally friendly products and procedures. Thus, contributing to the creation of a Green Cleaning program.

### Controllability of Systems: Lighting

IEQ Credit 2.2

**INTENT** Promote individual lighting control, productivity, and well being.

**CAPABILITY** OFGO user controlled task lighting can contribute to the reduction of ambient light and energy usage.

### Daylight and Views

IEQ Credit 2.4

**INTENT** Provide connection between indoors and outdoors for occupants through the instruction of daylight and views.

**CAPABILITY** OFGO can assist in the design of appropriate furniture applications for contributions to these credits through the use of transparent privacy solutions and low furniture heights.

## Energy and Atmosphere

### Optimize Energy Performance

EA Credit 1

**INTENT** Achieve increased levels of energy conservation.

**CAPABILITY** OFGO task lights are offered with high efficiency electronic ballasts which can help reduce the overall lighting power needed. OFGO task lights use environmentally friendly fluorescent tubes and have an on/off switch for individual control.

## Innovation and Design

ID Credit

**INTENT** To provide opportunity for projects to be awarded points for exceptional performance and innovative design.

**CAPABILITY** OFGO desking systems are GREENGUARD® Indoor Air Quality and GREENGUARD® Children & Schools certified as low emitting. Additionally, OFGO desking can be cleaned using environmentally friendly products and procedures. Thus, OFGO products can be used in the creation of a Green Cleaning Program.
