DESKING

Any space can be the canvas for an outstanding creation.

With nearly unlimited configuration possibilities and a variety of options and finishes, OFGO STUDIO's desking collection will shape your environment to suit personal preferences while delivering a cohesive look throughout your organization.

MODERN SERIES

DESIGN IS IN THE DETAILS

A rich palette of laminate and steel creates a balanced and sophisticated feel. Powder coated legs form a rectangular geometric base and feature a rounded edge detail. Enhance the look of any workspace by combining the elegance of powder coated steel with current color trends. Combine our fabric and finish offerings to provide a broad array of timeless choices. Laminate selections include solid and woodgrain finishes in light, mid-tone, and dark hues. Mix and match finishes to create various combinations of two-tone designs that complete the look of any space.

PULSE digital is a slim profile electronic lock designed for use on a variety of storage solutions including lockers, pedestals, filing drawers, desks, and a variety of multi-use cabinets. The PULSE digital lock is the perfect solution for the modern workspace, offering a more flexible approach to the utilization of space.

Our contemporary desking solution can support the styles and functions needed throughout any organization. Create endless layouts that maximize space, encourage collaboration or provide privacy to foster key decision making.

Choose from an extensive selection of storage and overhead options specifically suited for managerial and executive applications. Storage components can tower up to 84" high and are available with nine handle options, as well as a variety of laminate finish combinations.

MODERN SERIES

PanelX® is a modular desk-mounted divider system that is vertically stacked to provide privacy.

PanelX® dividers can be added onto Modern Series worksurfaces to provide visual privacy between work areas.

Utilize a mixture of Modern Series desking and PanelX® dividers to create an architectural framework that allows for 360 degree planning flexibility. In addition, divider inserts can be easily reconfigured to adapt to a multitude of space requirements.

PanelX® favors collaborative workspaces while simultaneously providing personal space for each individual. With privacy coverage from seated to standing height, each space can be adapted to the needs of any user.

BRING IT ALL TOGETHER

What are Extend series base panels? Extend series is a 3" thick by 29" high laminate panel system that can attach to Modern series desking components to divide personal space and wrap guest seating within a workstation. Extend Series panels can provide privacy and control where needed, without sacrificing open plan efficiency.

Bring it all together! Start with Modern series desking to create a variety of collaborative layouts. Add varying levels of privacy with PanelX® above worksurface dividers. Create an enclosed space with Extend base panels allowing for designs that are focused on today while being prepared for the future.

Simple Components. Lasting Impressions.

The reception area plays an important role in the success of a corporation. Our reception station offerings have been designed to impress visitors and customers from their very first glance.

Utilize a combination of **Modern** desking and **PanelX®** dividers to create a reception space that guarantees comfort, functionality, and flexibility.

Modern series features tables of various dimensions, shapes, and styles. Finish off by selecting a variety of compatible boardroom components, including serving carts, audio visual cabinets, presentation boards, and a variety of table top power module options.
