

LET'S MEET MEDIA

create environments
for optimized and
active collaboration
to bring information,
people, and spaces
together.

LET'S MEET MEDIA is designed to support all kinds of interaction. Large team or casual impromptu spaces, working in-person or virtually, all while allowing for collaboration, content sharing, and peer-to-peer learning. Available in two standard heights, and a wide range of sizes and finishes. Add on power modules with USB charging capability in various locations for added functionality.

- Back panels provide concealed wire management on underside of table
- Hinged side doors provide access to cabling for media devices
- Add bench units to create touchdown meeting settings
- Both sides of the media cabinet can be equipped with monitors
