

MY ZONE COLLECTION

MY ZONE desking system focuses on the design factors that create an effective workplace, including knowledge, worker engagement, satisfaction, performance, and organizational culture. MY ZONE was designed based on the idea that there are a variety of zones within a workspace, as today's workplace is not a "one size fits all" solution.

MY ZONE desking breaks the workplace down into three essential zones: the **Work** zone, the **We** zone, and the **Me** zone.

#### Work Zone

The WORK zone is characterized as an agile space that may be used for concentrated work, teamwork, and management tasks.

#### We Zone

The WE zone is designed for communal activities, offering the ideal environment for collaboration and communication in a variety of settings and compositions.

#### Me Zone

ME zones offer a space for concentrated work and privacy.

MY ZONE is focused on creating human-centered workplaces offering a contemporary solution that achieves aesthetic harmony across an entire office environment.

In today's business environment, change occurs rapidly. Individual work styles and corporate strategy are developing faster than the foundation that supports them. Products that support a broad spectrum of planning strategies and undefined future requirements are a necessity. From private offices to collaborative spaces, MY ZONE series flexible palette of products offers a complete solution to the agile workplace.

MY ZONE desking's thoughtful design creates work environments that are simple and flexible. Offering configurations that support a variety of work styles, space division, privacy, and storage needs, MY ZONE exemplifies a seamless blend of furniture functionality, connectivity, storage, and media integration that harmonizes with interior architecture.

Thriving spaces provide an ideal balance between collaboration and the performance achieved through dedicated personal space. MYZONE series desking can be configured to provide the optimal balance for any workplace. In addition, modular desking components allow users to reconfigure workstations to embrace the frequent changes faced by growing organizations.

MY ZONE desking products are purposely designed for scalability and seamless integration to allow for open ended planning and design freedom.

ACHIEVE  
DISCOVER

Discover endless possibilities. Productive collaboration is about opportunities for individuals to join together to create and innovate. MY ZONE series offers a combination of desking and storage components to create collaborative work environments for a variety of applications.

Designed for the versatile modern executive.  
A rich palette of laminate and steel creates a balanced and sophisticated look. Powder coated steel legs form a rectangular geometric base that offers a distinctive and airy style.

In the heart of every working environment is a place to gather, share ideas, and collaborate. From the conference room to the private office, MYZONE series tables complement any space.

Power Module Harness

Wire Management Tray

MY ZONE features a plug and play power solution that links multiple units together from one power infeed in no particular order, offering easy and modular configuration. MY ZONE's functional design offers easy access to power above and below the worksurface. Optional power module harnesses and wire management trays offer a clean organized look.

Choose from a variety of flexible desktop power and data solutions for executive and open plan applications. Mounted or pop-up solutions are available and deliver a fresh modern look. Deliver power directly into storage cabinets and bring simple touch down power stations to any workspace.
