CROSSBAR

Units crossbar helps to support the worksurface against deflection.

METAL TO METAL CONNECTORS

Units are aligned and fastened with metal to metal connectors and then secured with wood screws.

CAST ALUMINUM

Die cast Aluminum construction offers superior durability.

Standard in Silver powder coat.

LOCKING CASTERS

Standard with 4 locking hardfloor casters with 2.5″ wheel diameter.

SINGLE POINT RELEASE PADDLE

Single point release paddle with easy access under the worksurface.

RUBBER BUMPERS

Rubber bumpers protect from scratching nested tops.

NESTING

Tight nesting allows for space saving storage when tables are not being used.

ADDITIONAL OPTIONS:
