MULTI-PURPOSE TABLES

## TUBULAR

- TUBULAR collection tables are suitable for a variety of applications, including cafe, break rooms, collaborative spaces, and private meeting spaces.
- Tables are available in a standard height of 29"
- Bases are available in "X" and "T" style.
- Bases are available with 1-1/2" low profile floor glides or casters with a 360 degree turn radius.
- Bases are constructed with a 2-1/2" post and 1-1/2" bottom steel tube, providing you with added strength and stability.
- Bases are manufactured from a 16 gauge steel tube and 11 gauge steel top plate.
- Worksurfaces are 1" thick, solid core, 45 pound density particle board, finished on both sides with thermofused laminate. Rectilinear surfaces are manufactured with INVISA edge band for a permanent seal on all sides.
- Available in two standard finishes, black and silver powder coat.

Designed to offer affordability while allowing for countless configurations, the TUBULAR collection is comprehensive table series that is a classic choice for meeting, collaborative, and training environments.
