

MODERN    PANELX    MODERN ENHANCED    EXTEND    MIX & MINGLE

# DESKING

Any space can be the canvas for an outstanding creation.

With nearly unlimited configuration possibilities and a variety of options and finishes, OFGO STUDIO's desking collection will shape your environment to suit personal preferences while delivering a cohesive look throughout your organization.

**MODERN** SERIES

Two minds are better than one.

The ability to easily shift between focused individual tasks and shared group tasks provides an optimal balance of efficiency and productive communication. Choose from a combination of desking and storage components to create collaborative work environments for a variety of applications.

**MODERN** SERIES

Add **Privacy on Demand** dividers to any office space. The frosted acrylic dividers are available in a straight or wave design and can be affixed both above and below the worksurface.

## OPENNESS THAT BALANCES TEAM AND PERSONAL

Thriving spaces provide an ideal balance between collaboration and the performance achieved through dedicated personal space. **Modern Series** desking can be configured to provide the optimal balance for any workplace. In addition, modular desking components allow users to reconfigure workstations to embrace the frequent changes faced by growing organizations.

PanelX® is a modular desk-mounted divider system that is vertically stacked to provide privacy.

PanelX® dividers can be added onto Modern Series worksurfaces to provide visual privacy between work areas.

The PanelX® system includes 90°, 120°, and 135° connections. Utilize a mixture of Modern Series desking and PanelX® dividers to create an architectural framework that allows for 360 degree planning flexibility. In addition, divider inserts can be easily reconfigured to adapt to a multitude of space requirements.

PanelX® favors collaborative workspaces while simultaneously providing personal space for each individual. With privacy coverage from seated to standing height, each space can be adapted to the needs of any user.

**MODERN + PANELX** SERIES

**PanelX**® above worksurface dividers allow users to add privacy and functionality to any workspace. PanelX® divider inserts can be vertically stacked, reversed, and reconfigured with ease. Best of all, PanelX® is simple to specify, install, and add on.

**MODERN + PANELX + MIX & MINGLE SERIES**

It shouldn't require a meeting room to hold a brainstorming session. In fact, productive collaboration is not about never-ending meetings but opportunities for individuals to join together to create and innovate. Collaboration should have the chance to happen on the go without hindering the individual work of other users.

**Mix & Mingle** seating can be added to a variety of desking configurations to create go-to meeting spots right within a user's workspace. Mix & Mingle seating is mobile, comfortable, and can make any space the right space for people to gather and collaborate.

**What are Extend Series base panels?**

**Extend Series** is a 3" thick by 29" high laminate panel system that can attach to Modern Series desking components to divide personal space and wrap guest seating within a workstation.

Extend Series is all about dividing space while uniting teams. Our changing workplace requires furniture that supports various work styles, balancing the needs of the workplace with the needs of individual employees. Extend Series panels can provide privacy and control where needed, without sacrificing open plan efficiency.

Extend Series panels can also be combined with PanelX® above worksurface dividers to create a large range of privacy heights, from sitting to standing privacy.

MODERN + PANELX + MIX & MINGLE + EXTEND SERIES

## BRING IT ALL TOGETHER

OFGO STUDIO's desking products are purposefully designed for scalability and seamless integration to allow for open ended planning and design freedom. Create a collaborative space, a personal space, or a mixture of both by using components from multiple product lines. Start with **Modern Series** desking to create a variety of collaborative layouts. Add varying levels of privacy with **PanelX®** above worksurface dividers. Create an enclosed space with **Extend Series** panels, and add mobile teaming locations with **Mix & Mingle** seating. Pieces can be moved, swapped, and rearranged, allowing for designs that are focused on today while being prepared for the future.

In the executive office, fundamental decisions are made that help mold an organization and foster its growth. The presence of furniture that is designed for privacy and concentration is essential.

Whether you prefer the look of the Modern Series 1" thick worksurface profile or upgrade to Modern Enhanced 1.5" profile, our contemporary desking solution can support the styles and functions needed throughout any organization.

Create endless executive layouts that maximize space, provide privacy, encourage guest interaction, integrate technology, and foster decision making.

# EXECUTIVE

Choose from an extensive selection of storage and overhead options specifically suited for managerial and executive applications. Storage components can tower up to 84" high and are available with nine handle options, as well as a variety of laminate finish combinations.

# DESIGN IS IN THE DETAILS

A rich palette of laminate and steel creates a balanced and sophisticated look. Powder coated steel legs form a rectangular geometric base and feature a rounded edge detail. Enhance the look of any workspace by combining the elegance of powder coated steel with current color trends. OFGO STUDIO's fabric and finish offerings provide a broad array of timeless choices. Our surface laminate selection includes solid and woodgrain finishes in light, mid-tone, and dark hues. Mix and match finishes to create various combinations of two-tone designs that complete the look of any space.

**Modern Enhanced** is a contemporary desking solution that features a 1.5" thick top profile for enhanced elegance. This elite line of desking components is style compatible with Modern Series desking, providing a consistent palette when designing your office space.

**MODERN ENHANCED** SERIES

## EXPANDING YOUR PALETTE

**Modern Enhanced** features 1.5" thick worksurfaces that are further extended by a comprehensive line of storage solutions. From personal storage and wardrobe cabinets to lateral file and combination cabinets, you can personalize your storage requirements to best suit your needs. Integrate vertical storage seamlessly with an extensive selection of wall mounted and freestanding overhead solutions.

**Simple Components. Lasting Impressions.**

The reception area plays an important role in the success of a corporation. Our reception station offerings have been designed to impress visitors and customers from their very first glance.

Utilize a combination of **Modern Series** desking and **PanelX®** dividers to create a reception space that guarantees comfort, functionality, and flexibility.

# CAPTIVATE AT FIRST GLANCE

Intelligently combine wood and metal finishes to create an ambiance that is warm and inviting. Beautifully merge in lounge furniture for a synergistic look. Finish off with a rich woodgrain textured counter top for enhanced functionality and elegance.

This U-shaped reception station offers a generous workspace with privacy to enhance employee comfort and productivity. From simple to elegant, OFGO STUDIO's variety of material and finish combinations enables you to create a reception area that will captivate at first glance.

MODERN + PANELX SERIES

Utilize OFGO's 135 degree corner units to allow for a unique and captivating look in any reception space. Want to get creative? Add multiple 135 degree units to create a reception configuration that will impress with its angular design and rich wood finishes.

135 DEGREE PLANNING POSSIBILI-

MODERN + PANELX SERIES

## POSITIVE FIRST IMPRESSION

**PanelX**® above-worksurface dividers allow users to add privacy and functionality to any reception space. PanelX® posts can be utilized to add countertops from as low as six inches to as high as twenty-four inches above the worksurface. Endless combination possibilities give you the opportunity to express your company's true character.

In the heart of every working environment is a place to gather, share ideas, and collaborate. From the conference room to the private office, Modern Series tables complement any space.

Modern Series features tables of various dimensions, shapes, and styles. Choose from our Modern Series 1" thick profile top or upgrade to the Modern Enhanced 1.5" thick profile, and finish off by selecting a variety of compatible boardroom components, including serving carts, audio visual cabinets, presentation boards, and a variety of table top power module options.
