**Products Featured:** MODERN, PANELX, ARRIVE, TRIBUTE, VITA, REMINGTON

**Location:** Niagara, Ontario, Canada | **Dealer Partner:** Beatties

### THE OBJECTIVE

After several years of expansion within their greenhouses, Meyers Farms was in need of an expanded office facility. With a mix of administrative and production offices, along with a large open atrium for workstations, this new build construction features floor-to-ceiling, two-story windows with beautiful views of the farmland, wineries, and orchards surrounding it. With Meyers Farms rapidly growing, the objective was to build a brand new office space designed for the future growth of the company.

## THE SOLUTION

Dealer partner Beatties worked with Raimondo + Associates Architects, who was crucial in the design of the project to specify a complete OFGO STUDIO solution. The solution was designed to meet Meyers Farms needs for private office and open workstations, along with break rooms, lounge and conference room spaces.

Using a combination of MODERN and PANELX for the workstations, Beatties accomplished functional yet private open area workstations. Private offices were outfitted with MODERN casegoods and lounge areas were made comfortable with TRIBUTE chairs. The stunning reception area was outfitted with an ARRIVE U-shaped reception desk, TRIBUTE lounge pieces and REMINGTON coffee tables for a beautiful first impression. The airy lunch room featured custom, mobile tables from OFGO STUDIO and a second floor lounge space with both TRIBUTE lounge, REMINGTON coffee tables and VITA bar tables. Rounding out the space were multiple conference rooms outfitted with MODERN conference tables;
