

INDEX+

STATEMENT OF LINE

Elevate Your Workspace with Seamless Adjustability.

NDEX+ delivers a seamless fusion of flexibility and function, engineered to meet the evolving demands of today's dynamic workspaces. Available in a wide range of sizes (from 48" to 84" in length), with two- and three-leg options, and in three colors (silver, black, and white), INDEX+ allows the creation of the ideal setup for individual desks, collaborative workspaces, or corner offices. Its intuitive controls feature four programmable height settings, enabling users to save and switch between preferred positions at the touch of a button. A built-in position change alert encourages movement throughout the day, promoting a healthier, more active work experience.

- Height range of 22.9" to 49" (with surface) meets ANSI/BIFMA ergonomic guidelines.
- Integrated USB-C and USB-A charging ports on the handset for convenient device charging.
- Anti-collision technology detects obstructions and automatically stops movement.
- Quick-connect assembly system significantly reduces setup time.
- Handset with four programmable settings, allowing users to save preferred heights.
