

DISTRICT SPORTS CENTER

Products Featured: UNIFY, VITA

Location: London, ON | **Dealer Partner:** Lovers atWork Office Furniture

THE OBJECTIVE

To enhance the guest experience, this District Sports Center in London, Ontario, renovated its facility and added a comfortable lounge environment for families and their children participating in recreational programs and sports tournaments. The project aimed to improve visitor comfort, maximize space efficiency, and align with sponsor branding. To bring this vision to life, the Center collaborated with Lovers at Work Office Furniture, a preferred local OFGO STUDIO dealer.

THE SOLUTION

OFGO STUDIO's UNIFY soft seating was chosen for its ideal combination of aesthetics and performance. The high back configuration with a counter-height shelf on the back is ideal for convenient and comfortable seating to foster casual gatherings before and after events.

To align with brand sponsorship, OFGO STUDIO's base grade Challenger vinyl in a two-tone color scheme (Garnet red and Chinchilla black) was specified to ensure long-term performance while also aligning with sponsor branding.

Bar-height VITA tables were added to provide durable surfaces for food and drinks and to serve as a central point for conversations. Together, these solutions create a versatile space that accommodates lounge seating and overflow seating as needed.

To prevent premature wear and structural fatigue, UNIFY is built with JIGSAW Construction. Each JIGSAW frame is carefully designed to provide a strong, stable foundation that stands the test of time, ensuring lasting performance in demanding commercial environments. This construction method involves utilizing a reinforced frame as opposed to a straight join construction.

Both VITA and UNIFY surfaces feature premium TFL laminate, specified in a modern charcoal finish, offering excellent scratch, wear, and moisture resistance. Featuring INVISA edgebanding, the laminate is moisture, solvent and tamper resistant. The edgeband has minimal glue lines which enhances durability in high-traffic environments.

THE RESULT

Thanks to the collaboration with Lovers atWork Office Furniture and OFGO STUDIO, the District Sports Center now enjoys a lounge space that visitors absolutely love. The VITA tables and UNIFY seating perfectly support the desired comfort and functional aesthetic.

The lounge area effortlessly thrives during game times, with casual conversation, group gatherings, and overflow seating. The installation process was smooth and efficient, requiring only minimal revisions to accommodate client needs, and the space was delivered on time and to specification with zero punch. Guests and families were thrilled with the final installation, which exceeded expectations. This lounge will continue to provide a welcoming and durable environment for visitors for years to come.
